

"My topic".

It's really difficult to write something good, interesting and creative. So I thought I could write about myself and sum up stories I had written before.

As I wrote in my previous essays, I love books. Especially criminal books. Every book gives me something new, I find out more about things in life, about people. Each book is a different life.

What about me.. I'm just a normal teenager. I don't know what is going on with my brain, emotions, feelings. I'm trying to figure out who I am, who are people I love, who are people I hate.

For me, the most important feature is respect for other people. Many of us confuse telling their opinions with insulting somebody. I think we mustn't judge other people, because, for real, we don't know anything about them and their lives.

One of my favourite quotes is " Everybody is a genius, but if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid" by Albert Einstein. I suppose, I don't have to write a lot about it. It says everything.

Yes, it's true that I think money isn't that important as everybody thinks. In my opinion, we can have what we want. It's all in our heads.

In my leisure time I like reading books, surfing the Internet or just thinking.; literally, about everything. Moreover, I adore listening to my favourite music and drinking tea.

I do love tea. Sometimes I wonder if I'm not addicted to it .Maybe it is a little bit useless information in this project, but everything what I write here is spontaneous.

I hope I have given some facts about me and nobody will fall asleep while reading this. Anyway, I was honest and everything what I've written is true.
