

Funny adventure

Everybody has a childhood possession that still possess today. For someone that's a teddy bear, a doll or parts of the outfit, but for The Miz – WWE's superstar – this thing is a program from WrestleMania IV. This is related to a very funny story.

When he was 8, his father had gone on WM IV in Atlantic City. He had bought him this program where were photos of the biggest superstars of that time. When little Miz opened the book he was really surprised. All these photos were signed with autographs of wrestlers. There were autographs of famous people like Macho Man, Hulk Hogan and Andre the Giant – his favourites. It was incredible! Miz asked his dad how he had got all these autographs. His father was really mysterious and not eager to talk about that.

After a few years, when Miz was 18, he pulled out that book and showed his friends. Then he realized that there is something wrong with the signatures. He looked at them very carefully and he got just speechless. All the autographs were written in the same handwriting. His dad signed all these photos himself! Miz's childhood seemed to have been ruined.

After this discovery he was seriously resentful towards his father. But then he forgave him and laughed out at dad's desperation because he realized that his dad hadn't wanted to fail his little son.
